
List of Tables

1.1	Dynamics of indicators of resource provision of the economy of Ukraine in 2005 – 2015	3
1.2	Key indicators of the labor market in Ukraine in industries in 2005 – 2015	4
1.3	Structure of gross value added by individual types of economic activity in 2005 – 2015, %	5
1.4	Dynamics of investment in industrial production of Ukraine in 2005 – 2015	7
1.5	Dynamics of FDI in industry in the world, billion USD	8
1.6	FDI distribution by industry in Ukraine and the world in 2015, in %	10
1.7	Indicators of the integration level of the country's economy in the IPN depending on the FDI share in relation to GDP, %	10
1.8	Comparative characteristics of ease of doing business and carrying out foreign trade operations in some countries of the world in 2016	11
1.9	The dynamics of the main indicators of innovation activity of enterprises in the industries of Ukraine in 2006 – 2015	13
1.10	Types of economic growth in the production method	14
1.11	Dynamics of indicators of activity of Ukrainian industrial enterprises included in the production function	15
1.12	Relative weights of bases for specific stages of a country's economic development, %	18
1.13	The stage of economic development of Ukraine according to the WEF methodology	18
1.14	Index of potential capacity for industrial integration for certain types of economic activity	20
1.15	Shares of value added of domestic and foreign origin in exports in 2009 – 2015	25
1.16	Index of international fragmentation of production by individual types of economic activity in 2009 – 2015	27
1.17	Dynamics of the volume of new orders for the production of certain types of economic activity in 2013 – 2016	30
1.18	Dynamics of the index of direct participation of certain types of economic activity in GVC (<i>IFPi</i>) in 2005 – 2015	33

1.19	Dynamics of the index of reverse participation of certain types of economic activity in GVC (<i>IBPi</i>) in 2005 – 2015	34
1.20	Composite index of participation of certain types of economic activity in GVC in 2005 – 2015	35
2.1	Modified OLI decision model	49
2.2	Types of economic organizations according to the theory of transaction costs	53
2.3	Advantages and disadvantages of contractual relationship by type of interaction between partners	61
2.4	Contract relationship as a type of management of Global production networks	69
2.5	The dynamics of the types of contractual relationship for 2011 – 2015	76
2.6	Indicators of the volume and structure of international CR in the context of individual industries, average annual values for 2010 – 2015	77
2.7	The largest participants of contractual relationship (contractual production) by selected sectors, average figures for 2011 – 2015	80
2.8	Indicators of the use of production under the contract by the main owners of clothing and footwear brands in 2015	83
2.9	Indicators of international CR in the context of cross-border franchising, 2015	89
2.10	Top 15 global franchise systems distributed by revenue, 2015	90
3.1	Evolution of international capital movement theories	101
3.2	Location asymmetry of the 500 largest TNCs, 2016	130
3.3	Comparison of revenues of the leading TNCs of the world and GDP of individual countries, 2017	131
3.4	Direct and portfolio investment flows in the top seven developed countries, 1970 – 2014	133
3.5	Comparative indicators of the stability of types of foreign investment in periods of financial crises	134
3.6	The actual index of attracting FDI in some countries of the world for 1990 – 2016	135
3.7	Selected indicators to calculate the potential FDI index	137
3.8	Rating of countries by FDI potential index in 2015	138
3.9	The growth rate of real GDP and gross fixed capital formation (GFCF), 2014 – 2017, %	138
